Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. Figures 1a, 1b, 2, 3a, 3b and 4 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 8-10, 18 and 19 and rejected under 35 U.S.C. 102(b) as being clearly anticipated by Eichenlaub.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3727

5. Claims 1-8, 10-18 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Blanke.

Blanke discloses the claimed invention except it is unclear if the portion of the envelope with holes formed therein is comprised of first and second side panels. It would have been an obvious matter of design choice to provide the envelope of Blanke with first and second side panels, since applicant has not disclosed that first and second side panels solves any stated problem or is for any particular purpose and it appears that the Blanke invention would perform equally well with first and second side panels.

Furthermore, Blanke discloses the claimed invention except for the interior surface of the closure panel carrying an adhesive strip of self-adhesive material. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the interior surface of the Blanke closure panel with an adhesive strip of self-adhesive material since it was known in the art of envelopes an adhesive strip of self-adhesive material on the interior surface of a closure panel permits the envelope to be sealed before delivery.

6. Claims 1, 8-11 and 18-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lacey.

Lacey discloses the claimed invention except for the interior surface of the closure panel carrying an adhesive strip of self-adhesive material. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the interior surface of the Lacey closure panel with an adhesive strip of self-

adhesive material since it was known in the art of envelopes an adhesive strip of self-adhesive material on the interior surface of a closure panel permits the envelope to be sealed before delivery.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
